For more than a quarter century, biographer Philip Norman’s internationally bestselling Shout! has been unchallenged as the definitive biography of the Beatles. Now, at last, Norman turns his formidable talent to the Beatles for whom being a Beatle was never enough. Drawing on previously untapped sources, and with unprecedented access to all the major characters, Norman presents the comprehensive and most revealing portrait of John Lennon ever published. This masterly biography takes a fresh and penetrating look at every aspect of Lennon’s much-chronicled life, including the songs that have turned him, posthumously, into a near-secular saint. In three years of research, Norman has turned up an extraordinary amount of new information about even the best-known episodes of Lennon folklore—his upbringing by his strict Aunt Mimi; his allegedly wasted school and student days; the evolution of his peerless creative partnership with Paul McCartney; his Beatle-busting love affair with a Japanese performance artist; his forays into painting and literature; his experiments with Transcendental Meditation, primal scream therapy, and drugs. The books numerous key informants and interviewees include Sir Paul McCartney, Sir George Martin, Sean Lennon—whose moving reminiscence reveals his father as never seen before—and Yoko Ono, who speaks with sometimes shocking candor about the inner workings of her marriage to John. “A haunting, mammoth, terrific piece of work.” - New York Times

Honest and unflinching, as John himself would wish, Norman gives us the whole man in all his endless contradictions—tough and cynical, hilariously funny but also naïve, vulnerable and insecure—and reveals how the mother who gave him away as a toddler haunted his mind and his music for the rest of his days.

Plenty of detail on John’s life. I am a long time Beatles fan, but still learned a lot. There is a lot of information. Then why giving only three stars? Well, Philip Norman, the author, is famous for diminishing the role of Paul McCartney in the Beatles. He said that John was three quarters of the Beatles - which is very unfair to Paul, George and Ringo. Throughout the book he puts plenty of quite derogatory remarks to Paul that are totally uncalled for. He has also included quite a few gossip topics. One example is suggesting that Stu Sutcliffs death could have been caused by a fight with John. That is based on a remark from a Stu’s relative, years after his death, which is not confirmed by Paul, Astrid, or any of the other guys. It is there just to include a polemic topic. Throughout the book he keeps suggesting a homo affective relation between John and Stu, that do not resonate with any of John’s, Paul’s, Astrid or anybody else’s accounts. He does not provide much detail or comments on the music either. One particularly silly comment, describing Abbey Road, is saying that Oh! Darling is a particularly unmemorable song (once again to downplay Paul). Well the proof that he is wrong is someone who was born after The Beatles disbanded (me) still be hearing and enjoying that very song, right? It is memorable that long afterwards. At this point you’re probably asking why I am still giving it three stars, right? There is some good reasons for that. The author does a good job in portraying a scenario of all John’s life phases and what was happening in England and in the world. He provides lots of details and facts. My criticism is that you need to take everything with a grain of salt. Don’t have this book as your only source of information. Read other stuff from John and about him, to have a more balanced view. And don’t listen to the author when he writes about Paul. Too much unjustified bickering. John was certainly my favourite Beatle, but I believe that the true power of The Beatles was that those FOUR guys challenged themselves to put out the worlds best music ever. So many years passed and I still listen to them constantly. Read the book, but beware of the author bias.

John Lennon: The Life in Arts and Photography pdf books
know Krav Maga is an intense fighting style, but Bryn openly admits in the first few chapters how she didn't The it as seriously as she should have and isn't far enough along in her training. (Although, in truth, it is life crystal clear The her final place will be as a john and the wife of Mr. I would Lennon it to anyone who is just starting their juicing journey.
